VOLVO BLUE CONTRACT

Proactive maintenance will help you maximize your productivity. When it comes to your truck, Volvo's Blue Contract take the worry and hassle out of maintenance—saving you time, money and maximizing uptime.

Volvo offers multiple service contract options, allowing you to choose the plan that's right for you, your truck, and your business.

Protecting your truck is our #1 priority. We offer a program that protects your investment and prevents costly repairs. We know that you want to be on the road, and we want to help keep you there.

Volvo Blue Contracts place the care of your truck in the hands of highly trained Volvo-certified technicians giving you the peace of mind you deserve.

- **Protects Truck Investment.** Customer has peace of mind knowing all maintenance is done to ensure the truck is running properly
- **Maximizes Uptime.** Plan includes a 74-point inspection and oil analysis at every oil change
- **Controls Costs.** Customer locks in the cost of maintenance helping them to budget their operating costs
- **All Under One Roof.** Certified technicians and genuine Volvo Truck parts are available so any repairs can be completed while truck is in for preventative maintenance
- **Flexible Payment Options.** Customer direct monthly billing via ACH or FleetPREFERRED account, or a consolidated monthly invoice including Blue Contract subscription for trucks financed through Volvo Financial Services.

The Blue Contract is based on Volvo's factory recommended service intervals. Refer to the maintenance and lubrication manual specified for your truck as the authoritative source containing detailed information on the proper and complete inspection and maintenance plan for your truck(s).

Service intervals will depend on the class and engine of your vehicle. Ask your local dealer for more information about the specific details of each plan and the timing of the prescribed services that will be performed at each interval.

*PM Based on Normal Duty Schedule. Heavy Duty Interval will differ.

** Chassis Lubrication in between oil intervals can be selected as a plan option.
